

Solar Eclipse, April 8, 2024!!

The Path of the Eclipse

According to eclipse2024.org, for the Jackson area:

Partial eclipse phase starts at 1:56 PM

Mid-eclipse starts at 3:12 PM

Partial eclipse phase ends at 4:26 PM

Maximum coverage of the sun for this area will be 97.9%

The Safety Tips

- Wear the eclipse glasses the entire time you are looking directly at the sun.
- Do not sneak a peek at the sun without eclipse glasses.
- Hold onto eclipse glasses with two hands when looking directly at the sun so that the wind cannot blow glasses away.
- Wear eclipse glasses over eyeglasses.
- Do not look at the sun through unfiltered camera lens, telescope, or binoculars.
- Do not use sunglasses in place of the eclipse glasses to view the eclipse.
- Turn away from the sun before removing eclipse glasses.
