

**Hello GLMS Families! I am excited to begin my new roll at GLCS as the Social Worker for GLMS and George Long. My name is Felicia Thornton, a Grass Lake Schools graduate, who is excited to join the Warrior Family once again. I graduated with my Masters of Social Work from Spring Arbor University and hold a Bachelors of Psychology from Grand Valley State University. I am passionate about meeting people where they are and cheering them on in their life journey. My sidekicks on my journey are my husband, Jayme, and our dog, Dinah. We like to find adventure by spending time outdoors camping, hiking, or gardening. We truly love being in nature. My other interests include music, photography, antiquing, watching movies, and taking hammock naps. I value how unique we all are, and that we are connected by our different experiences, interests, and characteristics. Community is something that I value, and I am looking forward to being part of the Grass Lake Community Schools team.**
